Bekasi, Jawa Barat, Indonesia

I am a fresh graduate in Informatics Engineering from Institut Teknologi PLN, specializing in web development. With hands-on experience in developing responsive and user-oriented web applications during internships and independent projects, I have gained practical skills in both front-end and back-end development, particularly using Laravel, PHP, MySQL, HTML/CSS, and JavaScript. I am passionate about crafting clean, functional, and scalable solutions. Highly motivated, adaptable, and eager to contribute to dynamic teams, I am ready to grow professionally and deliver real impact in the tech industry.

Experience And Projects

PLN UP3 CIKOKOL - Tangerang, Indonesia <i>Internship</i> <ul style="list-style-type: none">Developed a web-based monitoring application using Laravel, Bootstrap, and MySQL.Designed and implemented CRUD features for reporting daily cleaning tasks.Created a dashboard to allow managers to view, comment on, and rate the cleaning staff's work.Ensured role-based access control between admin (staff leader) and users (cleaning staff).Improved internal workflow by digitalizing the manual supervision process.
